Detalle

The Tramex FTK is a compact [concrete moisture test kit](#) for [instant, non-destructive, quantitative moisture content testing of concrete floors](#) and ambient conditions and is the ideal non-destructive test kit for monitoring the most crucial information at the time of installation.

The Tramex CME5 moisture meter allows for [non-destructive quantitative testing of concrete](#) moisture content using Gravimetric testing as a baseline and comparative testing per ASTM F2659.

The Tramex Ambient Feedback Datalogger is used for testing, monitoring and time logging relative humidity, temperature and dew point in the environment. The Tramex Contact Temperature Probe provides temperature readings of the floor surface.

The Tramex Flooring Installer Tech Kit comes with an extension handle in a Tramex Easy-travel case. Bluetooth connectivity to the [Tramex Meters App](#) allows for visualization of readings and data reporting to mobile devices, to [GeoTag test results](#), create, save and share photos, reports and charts, as well as see your meter screen on your phone when extending to hard to reach places.

1. [Concrete Moisture Encounter - CME5](#).
2. [Ambient Feedback Datalogger - DL-RHTX](#).
3. [Free App available for Android and iOS \(phone not included\)](#).
4. [Contact Temperature Probe](#).
5. [Extension Handle](#).
