## Detalle

### \* CURRENTLY OUT OF STOCK

The Tramex Remote Environmental Monitoring System Xtra Accessory Pack adds more Cloud Sensors to your TREMS project. The AP-TREMS-Xtra comprises 5 CS-RHTX Tramex Cloud Sensors as well as 5 external Relative Humidity probes. These external probes extend the benefits of the remote monitoring system allowing for in-situ readings within building structures cavities in walls and ceilings and in situ RH readings in concrete.

Multiple Sensors can be used with one Station. Registration and on-site set-up is simple using a QR code check-in procedure. The on-site Sensors, with long-life batteries, transmit relative humidity, temperature (°C and °F), dew point and grains per pound / grams per kilo readings wirelessly via the Tramex Cloud Station enabling remote monitoring of up to 200 on-site Sensors on the Tramex Cloud platform. Tramex Cloud is a secure platform to store and report your moisture, temperature and relative humidity measurements, get notified of adverse conditions and quickly monitor status from any browser.

There are no subscription fees and there is free data with the Tramex Remote Environmental Monitoring System.

1. 5 x CS-RHTX Tramex Cloud Sensors
2. 5 x External Relative Humidity probes for in-situ
3. 1 x Heavy Duty Protective Carry Case
4. Tramex Cloud Software Monitoring platform (Tablet not included)
