

CORESNAP REMOVAL TOOL

SKU: N / A | **Categorías:** [Pavimento](#) |

DESCRIPCIÓN DEL PRODUCTO

The CoreSnap allows you to remove a drilled sample from a roadbed at or below the tackline without prying or drilling completely through the old roadbed. The CoreSnap is placed down over a normally cut core and tighten the binding bolt with a 0.25" drive socket/ratchet. A quick lateral motion of the handle breaks the core sample away from the older mat beneath, allowing the core to be removed easily.
